COMPANY OVERVIEW

Carson Electric LLC is an Idaho-licensed electrical contractor based in Homedale and available statewide. We deliver installations, controls hardware, and infrastructure for industrial, commercial, agricultural, and public works clients. Eight years as a company, 20+ years of hands-on trade experience, and 40+ years of combined project management expertise — with in-house design, estimating, and commissioning from first drawing through final energization. Kyle Carson, President, is the qualifying Idaho Master Electrician.

CORE COMPETENCIES

- **Commercial, Industrial & Public Works**
Electrical contracting for new construction, tenant improvements, and facility upgrades.
- **Power Distribution & MCC Rooms**
3-phase systems, transformers, switchgear, and motor control centers.
- **Municipal & Water Infrastructure**
Wastewater and water treatment plants, lift stations, and process integration.
- **Controls Hardware & I/O Checkout**
Install motor controls, VFDs, and PLC/SCADA field devices; perform I/O checkout. Programming by others.
- **In-House Design & Estimating**
AutoCAD drawings, Bluebeam Revu takeoffs, and detailed project estimates.
- **Agricultural & Process Systems**
Process wiring, lighting, backup power, and low-voltage installations.
- **Safety & Permitting**
OSHA-compliant practices and Idaho public works permitting expertise.

WHAT SETS US APART

- **SBA-Certified HUBZone Electrical Contractor**
Principal office in Homedale, Owyhee County. Eligible for HUBZone set-asides and evaluation preference most regional electrical firms cannot offer.
- **One Team from Drawing to Energization**
AutoCAD, Bluebeam takeoffs, estimating, installation, and commissioning stay in-house — fewer RFIs and fewer change orders.
- **Process and Infrastructure Electrical**
Demonstrated on industrial wastewater treatment, new industrial construction, museum/public buildings, and State of Idaho public-works lighting.
- **Idaho Crew, Statewide Reach**
Based in the Treasure Valley and available anywhere in Idaho. Lower mobilization cost and faster response than out-of-state contractors.
- **Licensed to Prime the Electrical Scope**
Idaho Electrical, Public Works, and General Contractor licensed. Qualifying Master Electrician: Kyle Carson, President.
- **Veteran-Staffed Small Business**
Fourteen-person team including a 100% service-disabled veteran and two additional veterans. Small enough to be accountable; staffed to self-perform.

PAST PERFORMANCE

Lactalis American Group — WWTP Phase II

Nampa, ID • Electrical subcontractor • \$1.1M • 2025-2027

Electrical subcontractor to IMCO. Current industrial wastewater treatment electrical scope: influent lift station, tertiary filtration, dewatering, MBBR, DAF, and integration with existing plant operations. Started 2025; ECD end of 2027.

Warhawk Air Museum

Electrical subcontractor • \$120,000 • 2024

Electrical subcontractor to Succor Creek Construction. Electrical construction for museum facilities on a public-facing institutional project.

State of Idaho — LBJ Lighting Retrofit

Boise, ID • Electrical subcontractor • Public Works • \$375,000 • 2026

Electrical subcontractor on a complete LED lighting retrofit of state facilities. Energy-efficient upgrades delivered under Idaho public works contracting requirements.

IMCO — New Idaho Facility

Idaho • Electrical subcontractor • Awarded 2026 • \$610,000

Electrical subcontractor to IMCO. Awarded and executing the full electrical scope for a new-construction industrial facility, including in-house estimating, installation, and project management.

Additional educational, municipal, and infrastructure electrical projects statewide.
